BATHS

Today's best bathrooms are no longer a mere necessity. With improved arrangements, luxe surfaces, spa-worthy tubs and showers, and specialized amenities and accessories, they are an absolute indulgence.

Bel Air Bath

HOME TO AN accomplished bachelor, this Bel Air, California, residence includes all the luxuries and amenities a single male could want, with the exception of the master suite. The original bath, with its poor design and much wasted space, was in desperate need of a makeover. To recreate the array and incorporate separate his and hers bathrooms and wardrobes, the homeowner called on Peter Sjöström of Peter Sjöström AIA Architecture & Design.

Sjöström reconfigured the original floor plan by incorporating a seldom-used gym adjacent to the master suite. The addition of this square footage allowed the architect to fashion separate his and hers spaces. Within her bathroom, Sjöström incorporated large, single-piece slabs of statuary marble to the floors, wainscoting, and shower. The marble lends the room a feminine aesthetic, while Venetian plaster on the walls and ceiling furthers the rich ambiance of the space.

Custom cabinetry and top-of-the-line Kohler fixtures imbue the room with a sense of luxury. In his bathroom, Azul Bahia granite evokes a masculine impression, and a steam shower provides him with a private place to unwind. *Learn more about this designer at www.petersjostrom.com.* «
